Before placing your order, please inform your server if a person in your party has a food allergy. Our Ancestral Blend® (regular crust and cheesy breadstixx) contains wheat and soy. Our gluten-free crust contains milk and eggs and is also produced in a facility that contains and processes dairy and tree nuts. Our mozzarella, cheddar and feta cheese contain milk. Our ranch salad dressing contains milk and eggs. Although we take great care in reducing cross contamination, wheat is present in all our stores.
